

Description

The Roots Cherokee S3S SR LG FO is a safety boot. The Cherokee has a full-grain leather upper. The easy-access zip makes it easy to put on and take off the work shoe. Because the zip is extra large, the shoes are also easy to put on and take off when wearing gloves. The crawling toe cap reduces wear and tear when working on your knees. The Cherokee has fibreglass toe protection. The midsole is made of anti-perforation textile, which ensures high penetration resistance. The PU/rubber outsole is wear-resistant and, in addition to good grip, also offers optimal cushioning for good walking comfort. Walking comfort is further enhanced by the PU insole.

Features
